

SOS FastLane

The corporate objective of Fastlane Group is focused on providing a unique social service by helping Malaysians and inbound travelers who become victims of crime to seek emergency solutions from the SOS Response Centre which is working closely with the police, ambulance groups and Bomba. Parallel to this objective, we want to provide the business community with a total risk management solution that will minimize or even eliminate the risk of crime occurring in their premises.

The Fastlane Group will be launching a free mobile app for the public to download. The app will provide the phone number of the nearest police station for the caller to seek help following a crime. This app will have GPS real time tracking and will compliment the existing 999 hotline. This service will be the latest CSR initiative by Fastlane for the benefit of the people residing in Malaysia or traveling to Malaysia.
